Education

University of Western Ontario

Expected Graduation: April 2028

Bachelor of Computer Science — Minor in Software Engineering

London, Ontario

- Earned **Dean's Honours List** standing at a **3.78 GPA** in Computer Science with a Software Engineering minor
- Built CS foundations through Data Structures & Algorithms, Software Engineering, Computer Architecture, Operating Systems, Discrete Structures, and Statistical Science

Work Experience

Western Computer Science Undergraduate Society

Oct 2025 – Apr 2026

Back End Developer | Website | Source Code

London, Ontario

- Shipped a production **REST API** for **jobless.live** by modeling **10+** entities with **FastAPI**, **SQLAlchemy**, **PostgreSQL 15**, **Alembic** migrations, and **Pydantic v2**
- Hardened stateless sessions through **JWT** refresh tokens, **CSRF** protection, **PBKDF2-SHA256** hashing, rate limiting, and SMTP throttling
- Automated interview scoring and **LLM** feedback by integrating **TwelveLabs** over async webhooks, verified with **HMAC-SHA256** and **RSA/X.509**
- Cut release toil by containerizing with **Docker** and running **GitHub Actions** lint gates, **GHCRC** image pushes, and self-hosted deploys

IALA - Igbo Association of London and Area

Jul 2025 – Aug 2025

Full Stack Intern | Website | Source Code

London, Ontario

- Launched a **fully responsive** community website for **igbolondon.ca** using **Next.js** and **TailwindCSS**
- Enabled events, giving, and member access through a dynamic calendar with **RSVP**, a **user portal**, **Stripe/PayPal** donations, newsletter, gallery, and blog
- Delivered on schedule by working with **stakeholders** to lock requirements and ship within scope

Western Engineering Outreach

Jul 2025 – Aug 2025

Senior Instructor

London, Ontario

- Taught **1000+** students as a homeroom instructor through daily hands-on **STEM** sessions
- Kept **5+** daily lessons on target by designing **STEM** plans aligned to learning objectives
- Held an engaging classroom by managing group dynamics and prompting **critical thinking**

Projects

SubTrack | Website | Source Code

Next.js | Supabase | Zod | Chrome Extension

- Shipped a multi-workspace subscription tracker (web + Chrome extension) using **Next.js**, **Supabase Auth**, team invites, and **Zod**-validated APIs
- Linked the extension to accounts through **SHA-256** one-time pairing codes (5-min TTL) and a one-shot token-exchange RPC
- Logged **Stripe/PayPal** checkouts into the right workspace by detecting on-page billing details and posting through a bearer-token API

Western Wingman | Website | Source Code

Gemini AI | Roboflow | YOLO | Next.js

CSNotes | Source Code

Next.js | TypeScript | Markdown | KaTeX

- Counted campus goose flocks and scored nesting/aggression risk from photos using **Roboflow YOLO** and **Google Gemini**
- Kept a live safety map accurate after hashed, expiring email approvals using **MapLibre GL** heatmaps and **Supabase Realtime**
- Turned a git-backed Obsidian vault into a browsable Western CS notes catalog using **Next.js** filesystem routing, **KaTeX**, and GitHub-flavored **Markdown**
- Made community contributions reviewable through GitHub issue/PR templates, build-time asset copies, and Markdown rewrites that fix wiki-links and local images for the web

Leadership

Duzzenn | YouTube | Instagram

Mar 2021 – Present

- Reached **900+** developers and **50,000+** impressions by publishing educational coding content on YouTube and Instagram
- Taught practical software topics spanning **artificial intelligence**, **computer science**, and **SaaS** through videos and posts

Technical Skills

Languages: Python, Java, C, C++, Go, Rust, SQL, HTML5, CSS, JavaScript, TypeScript

Developer Tools: Visual Studio Code, Git, GitHub, GitHub Actions, Docker, Trello, Supabase

Libraries/Frameworks: FastAPI, SQLAlchemy, PostgreSQL, Next.js, React, Pydantic, PyTorch, TensorFlow
