Education

University of Western Ontario

Expected Graduation: April 2028

Bachelor of Computer Science — Minor in Software Engineering

London, Ontario

- Deans Honours List — **GPA: 3.78**
- Courses: Data Structures & Algorithms, Software Engineering, Computer Architecture, Operating Systems, Discrete Structures, Statistical Science

Work Experience

Western Computer Science Undergraduate Society

Oct 2025 – Apr 2026

Back End Developer

London, Ontario

- Built a production-grade **RESTful API** with **FastAPI**, **SQLAlchemy**, and **PostgreSQL 15**, modeling **10+** entities with **Alembic** migrations and **Pydantic v2** validation
- Implemented stateless **JWT auth** with refresh tokens, **CSRF** protection, **PBKDF2-SHA256** hashing, rate limiting, and SMTP throttling
- Integrated **TwelveLabs** video AI via async webhooks for interview scoring and **LLM** feedback; secured with **HMAC-SHA256** and **RSA/X.509** verification
- Containerized with **Docker** and automated **CI/CD** via GitHub Actions with lint gates, **GHCR** image pushes, and self-hosted deployments

IALA - Igbo Association of London and Area

Jul 2025 – Aug 2025

Full Stack Intern

London, Ontario

- Designed and developed a **fully responsive**, full-featured community website using **Next.js**, **TailwindCSS**, and **Vite**
- Implemented a **dynamic event calendar** with RSVP, **user portal**, **Stripe/PayPal** donations, newsletter, gallery, blog, and downloadable resources
- Collaborated with **stakeholders** to define requirements and **shipped the website** within scope and on schedule

Western Engineering Outreach

Jul 2025 – Aug 2025

Senior Instructor

London, Ontario

- Instructed **1000+** students as a Homeroom teacher, fostering hands-on **STEM learning**
- Designed and delivered **5+** daily **STEM lesson plans**, ensuring alignment with learning objectives
- Managed **classroom dynamics**, encouraged **critical thinking**, and fostered an engaging **learning environment**

Projects

MusTang | [Source Code](#)

Next.js | **TypeScript** | **Supabase**

- Led development of **MusTang**, a study platform for Western students to browse programs, courses, and unit notes across **20** academic faculties
- Implemented **Supabase Auth** with email/password and Google OAuth, cookie-based SSR sessions, and **Next.js** middleware for protected routes
- Built a statically generated course catalog with **Next.js SSG** spanning program and course routes, including a curated CS catalog
- Shipped an authenticated upload pipeline for notes, videos, and assignments via API with admin email review and curation

Western Wingman | [Website](#) | [Source Code](#)

Gemini AI | **Roboflow** | **YOLO** | **Next.js**

- Built an **AI-powered** goose reporting pipeline using **Roboflow YOLO** and **Google Gemini** to count flocks and assess nesting/aggression risk from campus photos
- Developed a real-time campus safety map with **MapLibre GL** heatmaps and **Supabase Realtime**, plus an email-moderated workflow with **HMAC**-signed approvals

Pomo Fomo | [Native Windows Desktop App](#)

Tauri | **Rust** | **TypeScript** | **Vite**

- Built a native **Windows Pomodoro timer** with **Tauri 2** (Rust) and **Vite/TypeScript**, featuring dual-window design and live system-tray countdown
- Implemented global hotkeys, minimize-to-tray, login autostart, and privacy-first local analytics with **Win32** foreground app tracking and focus-time charts

Leadership

Duzzenn | [YouTube](#) | [Instagram](#)

Mar 2021 – Present

- Created educational coding content for **900+** developers, with **50,000+** impressions (and counting)
- Delivered coding advice on topics such as **artificial intelligence**, **computer science**, and **software as a service**

Technical Skills

Languages: Python, Java, Rust, SQL, HTML5, CSS, JavaScript, TypeScript

Developer Tools: Visual Studio Code, Git, GitHub, Docker, Trello, Supabase

Libraries/Frameworks: FastAPI, PyTorch, TensorFlow, ReactJS, PostgreSQL, NextJS, Tauri
